### ***Backbreaker* Update, Codenamed Greathouse, Blitzes Xbox 360™ and PlayStation 3® Today**

**OXFORD – August 6, 2010** – 505 Games USA and NaturalMotion Games announced today that *Greathouse*, the update to their revolutionary, euphoria-powered football game, ***Backbreaker***, is available for download on Xbox LIVE® Marketplace for the Xbox 360® video game and entertainment system from Microsoft and PLAYSTATION®3 computer entertainment system. The update introduces brand new features, gameplay enhancements and dozens of important tweaks, resulting in a greatly enriched ***Backbreaker*** experience.

Major features in *Greathouse* include:

- Brand new replay system with the addition of seven fully functional cameras, including free flight mode and a cinematic 'ball-lock' option.
- An additional 110+ plays adding up to twice the number of offensive and defensive plays, including an additional nine formations.
- Improved Quarterback camera view and passing game.
- A user-catch system, giving the player a much greater level of control over the on-field action.
- Comprehensive review of the penalty rulings following an analysis of reported errors.

The *Greathouse* update is available for download on Xbox 360 and Playstation 3.

Download updated assets [here](#), and view the new offensive play diagrams at the official ***Backbreaker*** [Flickr](#) page. Additionally, be sure to stay up-to-date with ***Backbreaker*** news, updates, and videos on [Facebook](#) and [YouTube](#).

***Backbreaker***, developed by NaturalMotion Games and published worldwide by 505 Games, is the world's first truly live sports title. Utilizing the studio's own euphoria engine, ***Backbreaker*** brings a revolutionary in-game animation system to the on-field action, meaning no two tackles will ever be alike. ***Backbreaker*** is available on Xbox 360™ and PlayStation® 3.
