Pangea Software Announces Beloved Mac Title “Bugdom 2” is Coming to the iPhone™ and iPod® Touch

AUSTIN, TX – September 17, 2008 - Pangea Software, Inc., the creator of *Enigmo*, named “Best iPhone Game” at WWDC ‘08, is pleased to announce that it is bringing the action-adventure game *Bugdom 2* to the Apple® iPhone™ and iPod® touch. Originally released exclusively for the Mac, *Bugdom 2* is the first fully interactive 3D action-adventure game for the iPhone platform with players taking on the role of Skip, a very enthusiastic grasshopper who battles roaches, flies, frogs, and other critters on a quest to regain his knapsack that was high-jacked by Bully Bee.

“Bringing this beloved Mac game to the iPhone was an obvious next step for the title,” says Brian Greenstone, President of Pangea Software. “*Bugdom 2* looks terrific on the iPhone. The colorful graphics are second to none, and the variety in gameplay mixed with the easy and intuitive controls makes it a fun, lasting experience for players of all ages.”

Players go on a variety of missions to track down Bully Bee and reclaim Skip’s knapsack - explore outside the yard, inside the house, slide down the drain pipe and even go on balsa airplane bombing missions! With such a range of action offered in this perilous journey, *Bugdom 2* is an exciting addition to the remarkable line of iPhone games already offered by Pangea Software – *Enigmo*, *Cro-Mag Rally* and *Billy Frontier*.

Bugdom 2 is scheduled for a worldwide release in late September 2008. For more information, please visit the Pangea Software iPhone web page at: <http://pangeasoft.net/iphone/>.
