

ezGear® Introduces ezSpace® Holiday UFO®

Murray, Utah- November 25, 2008- ezGear®, a leading manufacturer of electronic accessories and videogame peripherals, announced today the **ezSpace® Holiday UFO®**. Created in the shape of the iconic round "UFO" to save space, the ezSpace Holiday UFO comes in a festive green color, and is designed as a 6 outlet plug expander with built in surge protection and is the most versatile power extender in the world.

"The Holiday UFO is specially designed for the holiday season to help simplify and organize any home or office," says Charlie Bernstein, President of ezGear LLC. "It allows you to have a surge protected outlet plug expander that not only blends in with your Christmas tree but also allows you to hide all of the messy plugs that accumulate around your tree."

The ezSpace Holiday UFO comes with a built-in 1050 joule surge protector which provides extra protection for power surges. The on-off power switch is conveniently located on top of the UFO, to simplify turning lights on and off at one time. The ezSpace Holiday UFO is available now, and is an essential item for any home during the holiday season.
