From the game's new combat system and trading options to its numerous quests and character classes, players will have countless hours of entertainment at their fingertips. In addition, the game's free-roaming options expand the already massive storyline to include endless play through uncharted waters, new islands and undiscovered cities.

Players courageous enough to delve into the dangerous world of **Age of Pirates 2: City of Abandoned Ships** will discover treasure and adventure as they choose to go it alone and become the most feared pirate on the seven seas, or prove their loyalty and take the coin of one of four different navies; French, English, Spanish or Dutch. As players navigate their own route through the seas of the Caribbean they can explore strange new countries and undiscovered civilizations, plunder merchant ships and even raid fortified ports and cities – interacting with most characters and buildings along the way.

Players will experience tons of ship-to-ship combat and toe-to-toe clashes, as they cross paths with real-life historical characters such as Jamaican governors Colonel Thomas Lynch and Thomas Modyford. Almost everything in the game can be adjusted according to players' wishes, making customization and resource management a key element to gameplay.

Age of Pirates 2: City of Abandoned Ships has been rated "M" for Mature by the ESRB, 16+ by PEGI and 12+ by USK.
