

***iNetMania* Now Available for Download on the Apple® App Store!**

Act now and get in on the special promotional price

Phoenix, Arizona – April 2, 2009 – TechPad Productions, a social media research and online publication company, announced today that its first game, [*iNetMania*](http://www.inetmaniagame.com), is now ready for download for the Apple® iPhone™ and iPod® touch! It is available for a limited-time promotional price of \$2.99 USD (regularly \$4.99) from the Apple App Store and can be found at <http://itunes.inetmaniagame.com/>.

iNetMania is based upon TechPad’s popular board game, ServerMania, which features players competing to build a successful web hosting company and finish with the most money at the end of the game. *iNetMania* uses a similar format and rule set as the award-winning board game, but instead of a web hosting company, your goal is to create a successful website!

In *iNetMania*, you compete with up to three other players (either in hot-seat mode with human controlled opponents or an intelligent computer-controlled AI) all the way from the start-up phase to the finish line, with plenty of highs and lows (or “Spikes and “Slumps”) along the way. Increase your web traffic with savvy rolling, lucky card draws and strategy, as more visitors translate into more money – the player with the largest pile of cash at the end of the game wins!

iNetMania has loads of great features, including:

- Great graphics with dynamic, fluid, OpenGL animations
- A quick-play option that allows you to get into the game quickly and easily
- Easy to understand rules and a low learning curves ensures that anyone can get in on the fun
- The ability to create up to 30 profiles to keep track of your progress and prowess
- Gameplay achievements (similar to Xbox 360 Achievements) that set gameplay goals, allow you to track your prowess against your friends and lead to unlockable content, including new game pieces!
- Auto-save gameplay (if you quit or have to take a call)
- An Accelerometer-based, 3D dice cup to roll the die – a first for the iPhone!
- Swap n' Play™ with up to 3 other AI or human-controlled players

iNetMania is the internet entrepreneur iPhone experience that allows you to grow your own website company from the ground up using lifelike scenarios. Make millions on the go with *iNetMania* for the iPhone!
