

FOR IMMEDIATE RELEASE

## **Pangea Software Announces \$.99 Black Friday Promotion Lineup of Games Available for iPhone™ and iPod® Touch**

*Sale Includes Award Winning Title Engimo as well as Cro-Mag Rally, Billy Frontier, Bugdom 2 and Nanosaur 2: Hatchling*

**AUSTIN, TX – November 25, 2008** – Pangea Software, Inc. announced today a special one week promotion for all Pangea Software games available for the Apple® iPhone™ and iPod® touch. Consumers who purchase the applications beginning Tuesday, November 25, through Tuesday, December 2, 2008 will enjoy a special promotional price of \$.99, a drop of 50% to 85% off of their standard cost.

### **Applications included in the promotion:**

**Engimo**, named as a 'Showcase Winner' at the Austin Independent Games Festival and voted "Best iPhone Game" at Apple's 2008 World Wide Developer Conference, is the ultimate 3D puzzle game for the iPhone and iPod touch! To complete each level players manipulate various streams of flowing liquid so that the droplets can reach their destination. The faster players complete each level the more bonus points they receive.

**Cro-Mag Rally** is the wildest racing 3D game since man invented the wheel! In this prehistoric racer players take on the role of a speed-hungry caveman (or woman) who race with primitive vehicles through the Stone, Bronze, and Iron Ages. The game is visually stunning and utilizes the accelerometer allowing for intuitive and fun driving physics.

**Billy Frontier** is a spaghetti space-western with four games in one - Dueling, Shootout, Stampede, Target Practice - and is truly the most diverse 3D game available for the iPhone and iPod touch. Test your dueling reflexes, attempt to outrun a stampeding herd of Kanga-Cows, hunt down alien bandits in first-person shooter gun battles, and blast catapulted critters out of the sky in the Shooting Gallery!

**Bugdom 2** is a clever action packed title that has players take on the role of Skip, an enthusiastic grasshopper who battles roaches, flies, frogs, and other critters on a quest to regain his knapsack that was high-jacked by Bully Bee. To reclaim what rightfully belongs to Skip, players will have to accomplish a variety of tasks: explore outside the yard, inside the house, slide down the drain pipe and even go on balsa airplane bombing missions!

**Nanosaur 2: Hatchling** is the most advanced 3D game on the iPhone and iPod Touch! You pilot a flying dinosaur from the future whose mission is to locate stolen dinosaur eggs and return them to safety by throwing them into wormholes. You'll battle other dinosaurs and mechanized sentries while collecting various power-ups and weapons such as heat-seeking missiles, blasters, bombs, etc.
