## REALTIME AUDIO ADVENTURES ANNOUNCES FREE-TO-PLAY *SOUL TRAPPER* DEMO FOR APPLE® IPHONE™ AND IPOD® TOUCH

EL SEGUNDO, Calif. – May 12, 2009 – Realtime Audio Adventures announced today that *Soul Trapper: Preview*, the demo version of the critically acclaimed *Soul Trapper* audio adventure game, is now available for Apple® iPhone™ and iPod® touch. In the preview version, the player is introduced to the chilling adventure with the first four of the twenty-three chapters from the full version of the game.

“The Soul Trapper: Preview app is a great way to introduce players to the unique concept of audio adventures. The first four chapters give a thrilling glimpse of what’s to come,” said David Warhol, president of Realtime Audio Adventures. “As the game progresses, locations become more complex, the rich cast of characters expands, and a wide variety of audio puzzles interweave seamlessly with the story, requiring stereo perception, memorization, fast-action reflexes, and audio pattern matching to complete. Check it out and you’ll be drawn in!”

In *Soul Trapper*, players follow the turbulent life of Kane Pryce, a 27 year-old drifter who possesses a mysterious device known as the Soul Trap. The Soul Trap is a supernaturally-charged object that allows him to hunt down, capture, and send ghosts from the earthly realm to the afterlife. In this chilling adventure story, players help Kane unlock the mysteries surrounding a haunted church that stirs newfound emotions while navigating a maze of gangsters, dames, ghosts, and demons!

Today Realtime also kicked off a special limited time promotion for the full version of *Soul Trapper*. During the promotion, consumers who purchase the full version of the adventure title will enjoy a special price of \$4.99, a drop from the standard cost of \$7.99.
