“The breadth, depth and quality of *Superstars V8 Racing* make it one of the best racing games available on PlayStation Network,” said Greg Lanz, general manager of O-Games, Inc. “Our original plan was to release this game at retail, but after considering all the options, we decided to release it exclusively through PlayStation Network. *Superstars V8 Racing* delivers a first-class multiplayer race experience with world-renowned cars that will thrive with this audience. In addition, O-Games can sell *Superstars V8 Racing* for a lower price since we do not have to pay the costs to manufacture, package, and ship the product to retail. The bottom line? Gamers can now own a \$40 game for half the price they would pay in-store.”

Superstars V8 Racing provides players a near limitless amount of replayability, pick up and play mechanics and adjustable settings that offer plenty of fun for fans of arcade, sim and everything in between. Racing fans can enjoy dozens of official circuit tracks including name brand European and American vehicles. Drivers can modify cars from BMW, Audi, Mercedes, Cadillac, Jaguar, and more, letting players compete online against up to seven other drivers. The simulation and arcade-style gameplay throws players behind the wheel in one of the most intense European racing competitions, leaving only their wits and reactions between them and the Superstars Championship title.

Superstars V8 Racing is rated “E” for everyone by the ESRB. For more information on the game visit www.reverbinc.com/ogames
